

Scratching post for cats 118 cm.

Instructions:

1. Remove the base and post from packaging.
2. Identify the spot on the base to insert the bolt and washer by running your finger down the surface of the base.
3. Once you have found the indent, insert bolt through the base and fabric. (We have created a very small fabric hole to prevent fabric fraying, if the hole isn't big enough-carefully cut away portions with a (scissors.)
4. Attach post to the base by inserting the bolt and washer provided and screw the post down onto the base.
5. Tighten securely with Allen wrench provided.

- **SCRAP WITH 5 LEVELS** - the **cat** tree in the form of a tree is 118 cm high, divided into 5 floors, through which the cat can move and laze freely, but also lurk and play with other cats. The solid construction with wide base ensures stability of the scraper. The main advantage of the tree is a cozy house, thanks to which the kitten will be able to relax freely.
- **EXECUTION** - scratching post was made of vegetable sisal rope that is made from agave fiber. It is ecological, making it safe for our pets. The whole is complemented by a base covered with soft fur.
- **TOY CATS** - a fluffy mouse on a rubber band is placed on the tree, which stimulates cat' s curiosity and encourages the cat to play or hunt. In addition, a rope was installed on the 4th level of the cat tree, on which the cat can climb.
- **UNIVERSAL APPEARANCE** - the cat tree is distinguished by a modern and cozy workmanship, thanks to which it will look good in any room. The cat tree will fit perfectly into any apartment decor - regardless of style or accessories.
- **SPECIFICATION** - color: black, dimensions (height / width): 118x49cm.
Extremely **aesthetic and durable** cat tree is the perfect place to sharpen claws. Every owner should think about this practical gift for his pet - otherwise he can expect accelerated renovation and unexpected expenses due to damaged wallpapers or furniture. **Each kitty needs a place to sharpen his claws - the cat tree is perfect here** . The outer layer of the large cat tree is made of **reinforced sisal rope bra** , which will cope well with sharp claws. **The cat floors of the cat tree are lined with extremely soft fur, which guarantees a comfortable rest with a murmur in the background** . The main advantage of the tree is a cozy house. An additional resting option is a lair located on the 3rd level of the scraper. The kitten will be able to rest freely. 5 levels of observation satisfy cat' s curiosity. In the case of boredom **you can also be on the hunt mouse on the fitted rubber ± ce**, which is located on the 5th floor scraper - you can catch them and attack. In addition, a rope was installed on the 4th level of the cat tree, on which the cat can climb.

The cat tree will perfectly match any interior design - regardless of style or accessories. The tree is suitable for cats of different breeds.

1. UPPER PLATFORM:

At the highest level of the tree, cats can feel like real observers.

2. LEGGE:

An additional, comfortable option for rest and observation.

3. HOUSE:

It guarantees comfortable rest and relaxation for our pet.

4. SMALL PLATFORM:

By means of which the cat can freely move between the floors of the cat tree.

5. PLATFORM AND LADDER:

Comfortable ladder for climbing to a large platform.

5 Reasons Cats Scratch

- To remove old nail sheaths from the claws
- To exercise and tone muscles
- To relieve stress, frustration and boredom
- To “warm-up” for a vigorous play session
- To mark territory

How do I attract my cat to a scratching post?

Try attaching the carpet upside down or using other materials like upholstery fabric that are more “shreddable.” Attract your cat to the post using catnip. Sprinkle the catnip on the base and into the fabric or hang bags of catnip from the top. Spend time near the post encouraging your cat to interact with it.
