

Pet's toilet

The Pet bathroom is a backyard in a box, for your dog! The Pet bathroom is a hygienic, convenient and environmentally-friendly way to allow your pet to do its business without relying on you for an opportunity. It is easy to use and easy to clean and the synthetic grass will ensure a long lasting product which will solve your animal problems time and time again.

- **It is great for:** Apartments, condos, balconies, patios, boats, trailers, the elderly, decks, motor homes, and more!
- **Relief for your dog when you are out longer than usual:** Place your Pet-Loo inside when you are gone longer than usual to give your dog a place to relieve himself.
- **Perfect for puppy housetraining!** Dog trainers recommend using a grass dog potty instead of pee pads for puppy housetraining since paper is not something you will want your dog to potty on in the future.
- **Seniors dogs too!** Do you have a senior dog that can't quite make it outside like he or she used to? The Pet Loo is an ideal help.
- **Clean paws:** The Pet Loo drains fast to keep your dog's feet from getting soggy.
- **Easy to clean!:** The Pet Loo has a innovative gravity feed for in catching the urine in a jug which is easily emptied without risk of spilling. (Note: The use of any strong smelling cleaning agents on the potty may repel your dog and prevent him or her from using it.).
- **Training is easy**
- **Pet Expertise Hint:** Purchasing an additional piece of grass makes cleaning easier as you can hose the dirty off and allow it to dry and swap in the clean one.
