# Cat scratching post 170 cm

The eyepower cat play tree is equipped with many features and is a true all-rounder, who invites your cat to play, hide, scratch and relax. The scratching post is about 170 cm high and therefore offers plenty space of sleeping, hiding, climbing and viewing. The two large, covered with soft plush caves are very cuddly and are ideal for relaxing. The platforms are also covered with plush, making the cat tree especially cozy. A best overview ensure triangular high platforms. The sisal posts are made of genuine sisal and ensure optimal care for their claws. The three bobbing play mice animate for extensive romp and play. Older cats are happy about the two stable, covered with plush conductor.

Combining scratching, perching and climbing; our cat tree is every kitty's dream! They will enjoy hours of entertainment and have a comfortable resting place on the soft plush covered platforms. Your kitty can enjoy the fun alone or share its haven with its buddies; it's an absolute paradise for every cat!

Instructions:

1. Remove the base and post from packaging.

2. Identify the spot on the base to insert the bolt and washer by running your finger down the surface of the base.

3. Once you have found the indent, insert bolt through the base and fabric. (We have created a very small fabric hole to prevent fabric fraying, if the hole isn't big enough-carefully cut away portions with a (scissors.)

4. Attach post to the base by inserting the bolt and washer provided and screw the post down onto the base.

5. Tighten securely with wrench.
